Hello!

Are you looking for a great way to add spark to your party or gathering? How about some amazing live entertainment?

I would highly recommend Lisa Donna and her musicians to enhance the flavor of your afternoon or evening activity. Lisa has a beautiful soprano voice and a winning personality. Her brief introductions to the tunes she plans to share add musical and lyrical information. She adds touches of humor and romance and then wows your audience with her wonderful renditions of classic jazz and pop favorites. She and her trio or quartet, the number depends upon your requirements, share lovely creations that she has written and composed as well. Their musical abilities are splendid and their effect on your gathering adds warmth and enjoyment for all in attendance.

Lisa's joy in what she does is apparent and the professional manner in which she and her group perform uplifts the entire environment and adds great ambiance to any luncheon or dinner. She and her team are charming and they contribute pleasurable feelings to the special flow of your event.

Lisa sang for our Teacher Appreciation Dinner and Award Ceremony and it simply would not have been as enjoyable an evening without her. She and her musicians made each and every person in the room feel honored and special. Our educators loved Lisa Donna and her trio and smiled and chatted about what a wonderful and unique idea it was to have live and, may I add, excellent musical accompaniment in our desire to show appreciation for our hard working staff.

In a few months, I will be retiring from my position as Principal of the Religious Schools of Wilshire Boulevard Temple, so that I may work in development for a national non-profit organization. After May 30, I can be easily reached at my personal email [vinnygreen@gmail.com](mailto:vinnygreen@gmail.com) or by cell at (310) 457-4614, should you require further information about this dynamic, talented young woman and her wonderful musical group.

Most sincerely,

Vinny Green  
Principal, Religious Schools
